

PE: In the Street

We played different games that the students prepared in the street with recycled material. We did this on Wednesday, 4th May. We used recycled material, like plastic, sticks, rice in big water bottles, newspaper, tape etc. We did a game of Pichi, this is a game similar to baseball. In another game, we had to go on with a ball made of paper on a racket, to throw a ball in a bottle and after answering to some questions, we had to hit some bottles with a ball.
